

ARE YOU AN EUROPEAN SME WITH DATA MANAGEMENT CHALLENGES?

THE BlueBRIDGE CALL FOR SMES IS THE OPPORTUNITY YOU WERE LOOKING FOR

BlueBRIDGE, an EC funded project that delivers data management services, is selecting **5 data intensive SMEs that need its services to face important data management challenges**, all free of charge.

Why should you apply?

If you need collaborative data management services and you have limited time and financial resources, apply now and take advantage of the BlueBRIDGE offer:

-  Adopt existing services for data management
-  Exploit data and computing resources delivered by BlueBRIDGE
-  Get consultancy support from the BlueBRIDGE consortium experts

BlueBRIDGE offers a set of services and resources for several communities operating in the domains of aquaculture, the ecosystem approach to fisheries, and marine research. These services and resources can also perfectly fit the needs of data intensive Small and Medium Enterprises (SMEs) that, by adopting them, will save on costs and time.

Who can participate?

The call is open to all the **SMEs established in the EU member states that need services to access public data, harmonize tabular data, analyse trends and statistics, and publish data in a collaborative way.**

Specifically aquafarming, fisheries SMEs and environmental consultancy SMEs can take advantage of targeted domain specific services.

WHAT ARE THE SERVICES AND RESOURCES THAT YOU CAN HAVE ACCESS TO?

SERVICES FOR:

- ~ **data access**
- ~ **data harmonization**
- ~ **data discovery** (facilities for discovering and accessing species occurrence, taxonomic, geospatial and tabular data, etc.)
- ~ **data analytics** (facilities for species occurrence and geospatial datasets processing, for performing data mining tasks on tabular data, for the development of optimized feeding and growth models, for supporting decision making and strategic investment analysis and doing better planning in the aquaculture domain, etc.)
- ~ **data publication** (species distribution maps generation, production of indicators, facilities for creating and managing enhanced documents)
- ~ **online collaboration to facilitate communication, data and files sharing within the community**

RESOURCES:

- ~ **Access to over 800 data sources** (including biological, ecological datasets) **and to more than 350 geo-referenced chemical and physical variables with global geospatial coverage**
- ~ **Cloud computing resources** (dynamic deployment, hosting, monitoring, accounting, etc.)
- ~ **Over 170 models & algorithms**, including statistical methods for population dynamics and ecology, using fishery and survey data

For more details, a catalogue with all the BlueBRIDGE services and resources will be soon made available via the BlueBRIDGE website: www.bluebridge-vres.eu.

MORE THAN 1400 USERS HAVE CHOSEN BlueBRIDGE, WHAT ARE YOU WAITING FOR?

The call opens on the 30th of January 2017 and will close on the 1st of April 2017. Submission procedure and selection criteria will be available at www.bluebridge-vres.eu.
